

Smile Essentials DENTURE CLINIC™

Precision fit for great comfort, function and looks.

The DEPDS™ Precision Denture will give you the smile you've always wanted and the confidence of a great fit. The DEPDS™ Precision Denture allows for full cosmetic upgrades to restore or reinvent a natural healthy appearance and provide the best fit and function.

There are seven steps involved in fabrication; some may be combined for your convenience.

- Consultation: review and analysis of needed treatment and desired outcomes.
- Examination and preliminary impressions.
- Final impressions on customized trays.
- Bite registration with Ivoclar® facebow and necessary vertical dimension adjustments.
- Try-In with cosmetic evaluation.
- Insertion procedure including T-Scan®.
- Post insertion check up.
- Required follow up care.
- All dental insurance – public, private, federal or provincial – claims, submissions, and investigation assistance available with direct billing where applicable.

Included material and procedure upgrades:

- Customized final impression trays with Virtual® polysiloxane impression material for optimum accuracy and fit.
- European tooth lines by Vita MFT® styled for your most natural smile and excellent chewing function.
- High impact heat cured acrylic; a healthier approach with excellent colour sustainability.
- T-Scan® the occlusal analysis system for maximum balance and stability.
- Warranty repairs.
-

\$1475 per denture
NO tax as this is a health service.

Terms are cash, cheque, Visa, MasterCard and debit accepted.
